**Cardiovascular Disease**

### Cardiac Rehabilitation

Exhausting the Steps-Per-Day Trajectories of Cardiac Rehabilitation Patients: A Latent Class Growth Analysis Perspective.
*Journal of Cardiopulmonary Rehabilitation & Prevention, 34(2), 106-113.*

Abstract

Cardiac Rehabilitation and Outcome in Stable Outpatients with Recent Myocardial Infarction.
*Archives of Physical Medicine and Rehabilitation, 95(2), 322-329.*

Abstract

Psychosocial Benefits of Cardiac Rehabilitation Among Women Compared With Men.
*Journal of Cardiopulmonary Rehabilitation & Prevention, 34(1), 21-28.*

Abstract

Greater Improvement in Cardiorespiratory Fitness Using Higher-Intensity Interval Training in the Standard Cardiac Rehabilitation Setting.
*Journal of Cardiopulmonary Rehabilitation & Prevention, 34(2), 98-105.*

Abstract

Intertester Reliability of the Talk Test in a Cardiac Rehabilitation Population.
*Journal of Cardiopulmonary Rehabilitation & Prevention, 34(1), 49-53.*

Abstract

Impact of an Outpatient Cardiac Rehabilitation Program on Clinical and Analytical Variables in Cardiovascular Disease.
*Journal of Cardiopulmonary Rehabilitation & Prevention, 34(1), 43-48.*

Abstract

RUIVO, J. 2014.
Exergames and Cardiac Rehabilitation: A Review.
*Journal of Cardiopulmonary Rehabilitation & Prevention, 34(1), 2-20.*

Abstract

### Heart Failure

High-flow nasal cannula supportive therapy in chronic heart failure: A partial or completed “CPAP-like effect”?
*The Journal of Critical Care, 29(3), 465.*

Abstract

Ischaemic heart disease – related knowledge, behaviours and beliefs of Indo-Canadian and Euro-Canadians: implications for Physical Therapists.
*Physiotherapy Canada, 66(2), 208 - 217.*

Abstract

SILVA REIS, M., ARENA, R., ARCHIZA, B. et al. 2014.
Deep Breathing Heart Rate Variability is Associated with Inspiratory Muscle Weakness in Chronic Heart Failure.
*Respiratory Research International, 19(7), 16-24.*

Abstract

Respiratory drive and breathing pattern abnormalities are related to exercise intolerance in chronic heart failure patients.
*Respiratory Physiology & Neurobiology, 192, 90-94.*

Abstract

Respiratory Muscle Strength, the Six-Minute Walk Test and Quality of Life in Chagas Cardiomyopathy.
*Physiotherapy Research International, 19(1), 16-24.*

Abstract
Acute Lung Injury and ARDS

**Airway and Anaesthesia**

**Critical Care Rehabilitation**

BALAS, M., VASILEVSKIS, E., OLSEN, K. et al. 2014. Effectiveness and Safety of the Awakening and Breathing Coordination, Delirium Monitoring/Management, and Early Exercise/Mobility Bundle. *Critical Care Medicine, 42*(5), 1024-1036. Abstract

COPD

Abstract

*Respiration*, 87(1), 38-44.
Abstract

*Thorax*, 69,137-143.
Abstract

PATEL, M.S., MOHAN, D., ANDERSSON, Y.M. et al. 2014. Phenotypic Characteristics Associated With Reduced Short Physical Performance Battery Score in COPD.
*Chest*, 145(5), 1016-1024.
Abstract

POHLE-KRAUZA, R., MCCARROLL, M., PANNIKOTTU, K. et al. 2014. Body Mass Index Moderates the Effects of Portable Oxygen Transport Modality on 6-Minute Walk Distance in Patients With COPD.
*Journal of Cardiopulmonary Rehabilitation & Prevention*, 34(1), 62-68.
Abstract

POOLER, A. & BEECH, R. 2014. Examining the relationship between anxiety and depression and exacerbations of COPD which result in hospital admission: a systematic review.
Abstract

Abstract

*Int J Chron Obstruct Pulmon Dis*, 9, 139–150.
Abstract

RAMON, M.A., GIMENO-SANTOS, E., FERRER, J. et al., and the PAC-COPD Study Group 2014. Hospital admissions and exercise capacity decline in patients with COPD.
Abstract

*Respir Care*, 59(5), 709-717
Abstract

ROBLES, P., BROOKS, D., GOLDSTEIN, R. et al. 2014. Gender-Associated Differences in Pulmonary Rehabilitation Outcomes in People with Chronic Obstructive Pulmonary Disease: A Systematic Review.
*Journal of Cardiopulmonary Rehabilitation & Prevention*, 34(2), 87-97.
Abstract

Abstract

*Thorax*, 69, 525-531.
Abstract

Cystic Fibrosis (Paediatrics & Adults)

Abstract

Abstract

**General Lung Disease**

Abstract

*BMJ*, 348, 1606. 
Abstract

**Interstitial Lung Disease**

Abstract

Abstract

*Archives of Physical Medicine and Rehabilitation*, 95(5), 950-95. 
Abstract

Abstract

**Lung Cancer**

*Physiotherapy*, 100(2), 100–107. 
Abstract

PDF

**Pulmonary Rehabilitation, exercise & activity**

*Respiratory Physiology & Neurobiology*, 190, 40-46. 
Abstract

*Physiotherapy*, 100(2), 100–107. 
Abstract
BALAS, M., VASILEVSKIS, E., OLSEN, K. et al. 2014. Effectiveness and Safety of the Awakening and Breathing Coordination, Delirium Monitoring/Management, and Early Exercise/Mobility Bundle. Critical Care Medicine, 42(5), 1024-1036. Abstract

BARTESAGHI, M., BERETTA, E., POLLASTRI, L. et al. 2014. Inter-individual differences in control of alveolar capillary blood volume in exercise and hypoxia. Respiratory Physiology & Neurobiology, 190, 96-104. Abstract

Abstract

Abstract

Abstract

Abstract

Abstract

Abstract

Abstract

Abstract

Abstract

Abstract

Abstract

Abstract

Abstract

A qualitative assessment of COPD patients’ experiences of pulmonary rehabilitation and guidance by healthcare professionals. 
Abstract

Daily Step Count Is Associated With Plasma C-reactive protein and IL-6 in a US Cohort with COPD. 
Abstract

Effect of structured physical activity on prevention of major mobility disability in older adults: the LIFE study randomized clinical trial. 
The Journal of the American Medical Association, 311(23), 2387-2396. 
Abstract

Measurement Properties of the Incremental Shuttle Walk Test: A Systematic Review 
Chest, 145(6), 1357-1369. 
Abstract

Phenotypic Characteristics Associated With Reduced Short Physical Performance Battery Score in COPD. 
Chest, 145(5), 1016-1024. 
Abstract

POHLE-KRAUZA, R., MCCARROLL, M., PANNIKOTTU, K. et al. 2014.
Body Mass Index Moderates the Effects of Portable Oxygen Transport Modality on 6-Minute Walk Distance in Patients With COPD. 
Abstract

Hospital admissions and exercise capacity decline in patients with COPD. 
European Respiratory Journal, 43(4), 1018-1027. 
Abstract

Respir Care, 59(5), 709717. 
Abstract

Gender-Associated Differences in Pulmonary Rehabilitation Outcomes in People with Chronic Obstructive Pulmonary Disease: A Systematic Review. 
Journal of Cardiopulmonary Rehabilitation & Prevention, 34(2), 87-97. 
Abstract

Abstract

evaluation of Activity Limitation in Patients with Idiopathic Pulmonary Fibrosis Grouped According to Medical Research Council Dyspnea Grade. 
Archives of Physical Medicine and Rehabilitation, 95(5), 950-95. 
Abstract

SCHNEIDERMAN, J.E., WILKES, D., ATENAFAU, E.G. et al. 2014.
Longitudinal relationship between physical activity and lung health in patients with cystic fibrosis. 
European Respiratory Journal, 43 (3), 817-823.

Abstract

Neonatal care

Palliative / End of life care

Physiology and Lung Function

WANG, W., MA, D., LI, T. et al. 2014. People with older age and lower FEV1%pred tend to have a smaller FVC than VC in pre-bronchodilator spirometry. *Respiratory Physiology & Neurobiology*, 194, 1-5. Abstract

**Respiratory Physiotherapy**

Deep Breathing Exercises Performed 2 Months Following Cardiac Surgery: A randomized controlled trial.
*Journal of Cardiopulmonary Rehabilitation & Prevention, 34*(1), 34-42.
Abstract

WRIGHT, S., MANDRUSIAK, A., RAMSbotham, N et al. 2014.
The use of Simulated Learning to Enhance Cardiorespiratory Acute Paediatric Physiotherapy across Queensland.
*Pediatric Critical Care Medicine* 15*(4), 222.
Abstract

**Smoking Cessation**

The gender-specific association between asthma and the need to smoke tobacco.
*Heart and Lung, 43* (1), 77-83.
Abstract

Smoking cessation effectiveness in smokers with COPD and asthma under real life conditions.
Abstract

Persistent Effects of Maternal Smoking during Pregnancy on Lung Function and Asthma in Adolescents.
Abstract

Spirometry and Health Status Worsen with Weight Gain in Obese Smokers but Improve in Normal-Weight Smokers.
Full Text

Change in mental health after smoking cessation: systematic review and meta-analysis.
*BMJ, 348*, 1151.
Abstract

**Surgery**

**Pre-operative Physiotherapy & inspiratory muscle training**

Risk Factors for Postoperative Pneumonia after Cardiac Surgery and Development of a Preoperative Risk Score
*Critical Care Medicine, 42*(5), 1150-1156.
Abstract

Determinants of inspiratory muscle strength in healthy humans.
*Respiratory Physiology & Neurobiology, 196*, 50-55.
Abstract

Effects of inspiratory muscle training on lung volumes, respiratory muscle strength, and quality of life in patients with ataxia telangiectasia.
*Pediatric Pulmonology, 49*(3), 238–244.
Abstract

SNOWDON, D., HAINES, TP. & SKINNER, EH. 2014.
Preoperative intervention reduces postoperative pulmonary complications but Not length of stay in cardiac surgical patients: a systematic review.
*Journal of Physiotherapy, 60*(2). 66-77.
Abstract

Reference chart of inspiratory muscle strength: a new tool to monitor the effect of pre-operative training.
*Physiotherapy, 100*(2), 128–133.
Abstract
Cardiothoracic Surgery

Upper GI Surgery

**General & Vascular Surgery**

**Use of Technology**

**Education**

**Miscellaneous**

Safety of benzodiazepines and opioids in very severe respiratory disease: national prospective study.
*BMJ*, 348, 445.
Abstract

Effects of early and late pneumothorax drainage on the development of pulmonary oedema.
Abstract

HAYNES, J. M. 2014.
Pulmonary Function Test Quality in the Elderly: A Comparison with Younger Adults.
*Respir Care*, 59(1), 16-21.
Full Text

Lung Function and Respiratory Symptoms in Association with Mortality: The HUNT Study.
*J. COPD*, 11(1), 59-80.
Abstract

Delayed antibiotic prescribing strategies for respiratory tract infections in primary care: pragmatic, factorial, randomised controlled trial.
*BMJ*, 348, 1606.
Abstract

RAHMAN, N. M., KAHAN, B. C., MILLER, R. F. et al. 2014.
A Clinical Score (RAPID) to Identify Those at Risk for Poor Outcome at Presentation in Patients with Pleural Infection.
*Chest*, 145(4), 848-855.
Abstract

Suction Catheter Size: An Assessment and Comparison of 3 Different Calculation Methods.
*Respir Care*, 59(1), 32-38.
Full Text

Concordance and Discriminatory Power of Cough Measurement Devices for Individuals with Parkinson Disease.
*Chest*, 145(5), 1089-1096.
Abstract

Does this patient have an exudative pleural effusion? The Rational Clinical Examination Systematic Review.
*The Journal of the American Medical Association*, 311(23), 2422-2431
Abstract
