Repeat spirometry after 10 minutes
  - FEV\textsubscript{1} to be re-calculated (Equation 1).

**FEV\textsubscript{1} drop remains >15%**
- Administer short-acting bronchodilator.
- Continuous monitoring of observations.

Repeat spirometry after 10 minutes
  - FEV\textsubscript{1} to be re-calculated (Equation 1).

**FEV\textsubscript{1} <10% from baseline**
- Patient is safe to leave.
- Outcome to be reported to Medical team.

**Inform MDT re: failed ITRA**
- MDT to make decision on repeating.
- ITRA with alternative drug combination.

**FEV\textsubscript{1} <10% from baseline**
- Patient is safe to leave.
- Outcome to be reported to Medical team.

**FEV\textsubscript{1} remains >15% from baseline**
- Registrar to review immediately.
